<u>RE: DONATION</u> Mierlo, January 5 - 2021

Dear Mr. Hellman,

We send you the Annual Report 2020 of our foundation IFUD of Human Rights on data DVD-rom, (pdf-file). In the Annual Report you can find the information about the donation to the USHMM Museum.

Adolf Hitler called the national anthem "Deutschland, Deutschland über alles" on 1 August 1937 "the song that was sung for us Germans on most sacred revelation". From 1940 the Horst Wessel-song was added to the Deutschland-song each time. Millions of people sang themselves, Germany and the "Ostmark" included in "Her Blood and her grave". It came as no surprise that in 1945 the Allies in Germany, both songs, like all National-socialist songs forbidden.

The coupling of the "Deutschlandlied" with the "Horst-Wessel-Lied" during the Nazi era seriously damaged (lyrics and melody) of Joseph Haydn and the lyrics of Heinrich Hoffmann von Fallersleben. The German national anthem reminds too much of the Nazis. I want them to stop. Legal: First under Dutch law with a notarial deed, and then by means of an European Enforcement Order, in the Member States of the EU as well as Germany. [ the concept of 'uncontested claims' should cover all situations in which a creditor, given the verified absence of any dispute by the debtor as to the nature or extent of a pecuniary claim, has obtained either a court decision against that debtor] REGULATION (EC) No 805/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 21 April 2004 creating a European Enforcement Order for uncontested claims.

Human rights and the Holocaust is used selectively at times and places that suits/suited the Dutch state itself. Anything that does not fit directly in their stable is automatically refused. In this way, international treaties and laws are also set aside. Everything revolves around maintaining the status quo and international trade. They protect each other, "State corporate

crime".

The financial possibilities of the foundation "IFUD of Human Rights" to take action against the powerful Dutch state is minimal.We -IFUD of Human Rights together with Audio-Rarities- call on the Dutch State to take serious measures to stop all undemocratic tendencies towards all possible means. This case concern deliberately undemocratic, discriminatory and under the rule of law unworthy acts and/or omissions by the State of the Netherlands. It cannot be attributed to the coincidental concurrence of circumstances. The fact that the Dutch government has allocated more than 8.5 million euros for the establishment of the Holocaust Museum in Amsterdam does not mean that it is the to tolerate (also) the photoshopped images of dignitaries from the Dutch government provided with swastikas, SS-signs and Hitler mustaches that appear online. IFUD of Human Rights has already written several times to change the government's mind about this, to stop this and actually start actions.

Everything runs according to the Dutch legal system, no German or American law necessary. The Dutch state has always been reluctant to contest it. A lawsuit against the Dutch State is necessary before the civil court in The Hague to obtain a "judgment in absentia". This must be done with a Dutch lawyer.

- the most recent information we sent to the dutch State dates from January 2- 2020, and can be found on page 591 of the annual report.
- The letters by Wim Kok concerning Hitler's Inferno and the German national anthem can be found on page 569 570 of the annual report.
- The donation to the USHMM can be read on pages 182 / 222 / 225 / 226 and 227 of the annual report.

The museum plays a key role in putting the Dutch State under pressure, more than IFUD of Human Rights and Audio-Rarities can do. The Dutch State is clearly abusing its dominant position as a state. Although the foundation has had everything excellently documented in a notarial deed.

The financial overview of the foundation and Audio-Rarities can be found on page 968.

## What actions can the USHMM start:

- The USHMM can send a letter to the Prime Minister in The Hague about the abuse,
- The USHMM can help to get media attention for this case and publish it,
- The USHMM may be able to help arrange an attorney for the case.

Yours Sincerely IFUD of Human Rights Chairman J.P. van den Wittenboer

Minister of Justice and Security Authorized on behalf of the Dutch State D. Yesilgöz-Zegerius

PO Box: 20301 2500EH, THE HAGUE

Mierlo,11 January 2022 RE: For your information

His Excellency Yesilgöz-Zegerius,

#### Summenary.

The State of the Netherlands has <u>only</u> disputed the enforceable title above the notarial deed and that it was issued by the notary as a grosse in summary proceedings by a bailiff at the time in 2008. The content of the notarial deed in copy has not been contested further.

The foundation has previously found indications in the file that can currently make substantive handling of a dispute impossible due to abuse of procedural law by the State of the Netherlands. The independence of national courts falls within the scope of EU law and therefore under the control of the EU Court.

Access to Justice: Charter of Fundamental Rights, Article 47 (Right to an effective remedy) Charter of Fundamental Rights, Article 51 (Scope) Charter of Fundamental Rights, Article 52(3) (Scope and interpretation of the rights guaranteed and principles) Treaty on European Union (TEU), Article 4(3) TEU, Article 19.

The fact that the civil law notary was <u>not</u> allowed to place the enforceable title above the authentic deed <u>in this case</u> and to issue the deed as a grosse was <u>successfully disputed</u> earlier in 2008. The contents of the authentic deed with attachments,

however, remained <u>undisputed</u>. Pursuant to Article 149 Rv, the court must therefore assume that the verbatim text in the authentic rectification deed is correct as long as it has not been contested.

In view of the statement under oath in the notarial deed, it is not possible to assume a democracy, but a sham democracy. An integral parliamentary public inquiry will <u>first</u> have to take place into the state of the rule of law and democracy, in combination with the legal system with the hearing of all witnesses under oath. Tacit acknowledgment by the State of the Netherlands of the further content of the rectification notarial deed of dd. June 21, 2007, may culminate in a tacit consent default.

#### Introduction.

In 1998, the Ministry of Economic Affairs in The Hague discussed the main points and objectives with regard to the correct use of and with the Compact disc Hitler's Inferno (section 1b, attachments to the notarial rectification deed). At the time, the justified confidence was created that a legally valid and reliable legal relationship was entered into, which was subsequently confirmed by letter and signed. Also or as a result it entails that the State of the Netherlands must uphold this justified confidence as a reliable partner in warning against fascism and passing on the objective of making known the information about yesterday's lesson (testimony as a lesson for the future ). Certain actions and/or omissions or behavior fall outside the framework of "fair use" in this project. To mention: abuse of..... ideas, negativism, obscenity, obscurantism, gestures, expressions, emblems, falsification of history etc.

"Fair Use" (a) only for certain specified activities, taking into account the legal information on orphan works.; (b) only if such activities do not conflict with the exploitation of the copyrighted work; and (c) only if such activities do not unreasonably prejudice the legitimate interests of the author and/or work. In this way, most countries have enacted "fair use" or "fair dealing" laws that allow certain specified activities, including: personal research and study; Education; libraries.

#### Subject: Hitler mustaches, swastikas and other Nazi symbols.

The <u>deliberately</u> allow hate crimes: Longer wait for appropriate action, the greater the risk that it also encourages copycat behavior and ultimately lead to scold, threaten or violence. There is also a chance that society will soon regard such transgressive behavior as normal behavior and socially acceptable. The unfavorable assessment and take down of the foundation with Audio-Rarities to publicize the information about the CD "Hitler's Inferno" – the lesson of yesterday (testimony as a lesson for the future) by the State of the Netherlands. Have been treated disrespectfully and uninterested for decades by the various levels of government from high to low with a few exceptions. The foundation with Audio-Rarities is deliberately excluded (ostracism). The various agencies within the Dutch government that are supposed to protect the foundation did exactly the opposite: riddled with nepotism and a job carousel for failing politicians. It also appears that there is a rotation system in which ministers exchange posts and could even return to their old position after serious failure had previously been shown. My case shows how dysfunctional the system in the Netherlands is... system-wide.

The German national anthem is also under discussion.

#### Legislation.

For the admissibility of the claim, the obligation to state and the burden of proof lies with the State of the Netherlands to prove the inaccuracy of the notarial deed, together with an obligation to substantiate. The State of the Netherlands has had ample opportunity to adequately study the file and to obtain proper information from the notarial specialists of the State Attorney. The obligation to provide evidence with the burden of proof therefore does not lie with the foundation and Audio-Rarities. If the State of the Netherlands does not contest the claim (with reasons),

does not intend to, or the State is legally prohibited from disputing as yet; on the basis of Article 149 Rv, the court must then assume that the facts on which the claim is based in the authentic deed are correct and the court must therefore allow the claim. Concerns correction deed notarial dated June 21, 2007 that was issued for Eerste Grosse on October eight, two thousand and seven by mr Theodorus Hubertus Johannes Maria op de Laak, notary in Budel, municipality of Cranendonck, the issue of which is prohibited by the preliminary relief judge of the court in Den Hague in 2008. The notary may not place that title "in the name of the Queen" at the head of the deed, that is only possible -in this case- by a judge, (letter of January 2, 2020 by IFUD of Human Rights to Minister FBJ Grapperhaus of Justice and Security).

Progress report implementation of war victims LETTER FROM THE STATE SECRETARY FOR HEALTH, WELFARE AND SPORT

To the President of the House of Representatives of the States General The Hague, 12 April 2021.

On January 27, 2020, a large international gathering in Auschwitz-Birkenau commemorated the 75th anniversary of the liberation of the Nazi German extermination camp there. On behalf of the Netherlands, King Willem-Alexander and Prime Minister Mark Rutte attended this commemoration.

The approach to online antisemitism lies with the Ministry of Justice and Security. In addition, a National Coordinator for Combating Anti-Semitism was appointed in the spring of 2021 for the work area of the Minister of J&V, who fulfills a signaling and advisory function. For the implementation of this recommendation, reference is made to the project carried out by the Israel Information and Documentation Center (CIDI). This project is funded from the €3 million provided by the Ministry of J&V for the fight against anti-Semitism, the monitoring of online anti-Semitism and Holocaust denial. The CIDI has indicated that it wishes to make use of the available expertise of the IHRA.

The Netherlands has been reprimanded by Brussels for criminalizing Holocaust denial.

Insulting forms of, for example, Holocaust denial, as referred to in Article 1 of the Racism Framework Decree, are punishable in the Netherlands under Article 137c of the Criminal Code. This is confirmed by case law of the Supreme Court (see, inter alia, Supreme Court 10 September 1985, NJ 1986/164, Supreme Court 25 November 1997, NJ 1998/261 and Supreme Court 27 March 2012, NJ 2012/220).

LEGISLATIVE TRAIN 11.2021 6 A NEW PUSH FOR EUROPEAN DEMOCRACY PROPOSALS TO EXTEND THE LIST OF EU CRIMES TO ALL FORMS OF HATE CRIME AND HATE SPEECH

On 16 September 2020, European Commission President von der Leyen announced in her State of the Union address to the European Parliament and in the accompanying letter of intent a new initiative to extend the list of EU crimes to all forms of hate crime and hate speech - whether because of race, religion, gender or sexuality. It was later mentioned in the work of the 2021 Program Commission and in February 2021 the Commission published a roadmap on the initiative, scheduled for the fourth quarter of 2021.

## Debt collector.

At the time, the bailiff turned to the preliminary relief judge in 2008 because objections were raised with regard to the execution of the notarial deed. The notarial grosse of 21 June 2007 is <u>not subject</u> to enforcement against the State. The bailiff will therefore be prohibited from executing them, (Rb. The Hague

(President) February 21, 2008 KG 07/1314).

In essence, the summary proceedings lend themselves exclusively to an investigation into whether the power of execution is being abused and do not concern the content of the notarial grosse and the statement under oath. The State of the Netherlands has not disputed the contents of a notarial grosse, only the notary is prohibited from issuing a grosse thereof. Refer to the letter of January 2, 2020, sent by the foundation to the Minister of Justice and Security, FBJ Grapperhaus. The notarial deed in copy issued by the notary de

content remains "literally" fixed as long as not contested in a normal civil process by any means. As long as the copy of the deed is left undisputed, the Collective Labor Agreement standard applies. The Collective Labor Agreement standard is the purely linguistic interpretation of the authentic deed. The reason for this is that third parties are involved, such as the tax authorities, for example, who must be able to trust that what is stated in the deed is also correct. Collective Labor Agreement standard is third-party protection, uniform explanation or certainty (HR case law).

In view of the judgment by the District Court in The Hague, (Rb. Den Haag (Vzr.) 21 February 2008 KG 07/13 14), this means that the foundation is not authorized to act on the basis of the grosse of a notarial deed of 21 June 2007 to take the enforcement measures against the State of the Netherlands. This is only possible with the consent of the State, in the event of voluntary participation by the parties, by means of a notarial deed signed by the parties. The legislator explicitly sets strict requirements for obtaining an enforcement order. Enforcement of an enforceable order has a mandatory character and must for that reason – in this case – be preceded by the intervention of the court. art. 157 paragraph 2 Rv provides that party statements included in a deed (including unilateral Statements in this case) in principle have compelling evidential value. 'compelling evidence' means that the court is obliged to accept the content of certain means of evidence as true, or is obliged to recognize the evidential value that the law attaches to certain data (art. 151 paragraph 2 Rv). However, counter-evidence can in principle be provided against compelling evidence (Article 151, paragraph 2 Rv). A notarial deed has compelling evidential value on the basis of Articles 151 paragraph 1 and 157 paragraph 2 Rv. This does not alter the fact that a notarial deed may contain inaccuracies, for example clerical errors or an incorrect representation in the content, for example regarding the party statement of JP van den Wittenboer on behalf of the foundation. Proof to the contrary can be provided against the copy of the notarial rectification deed of 21 June 2007 (Article 151 Rv).

The letter from the House of Representatives of the States General dated September 14, 2006, regarding Hitler's Inferno, and a letter sent at the time on September 29, 1997, by the Minister of General Affairs Wim Kok berteft the CD Hitler's Inferno; these will be adopted as the position of the State of the Netherlands with regard to "Hitler's Inferno" and are included in the attachments of the documents to the notarial deed in section 7b: DVD-ROM with various files.

# Compact disc.

The Dutch State appears to be particularly impressed by the CD "Hitler's Inferno" with original recordings of speeches and songs from Hitler Germany. The Dutch State admires the efforts of the foundation with Audio-Rarities to warn against fascism and injustice. . Members of the Standing Committee of Justice of the House of Representatives of the States General can individually use "Hitler's Inferno" when dealing with Bills or asking questions to the government.

Hitler's Inferno: Yesterday's Lesson (Testimonial as Lesson for the Future).

https://archive.org/details/hitlers-inferno-audio-rarities

# Right to dispute.

Provided that the State of the Netherlands is also free to submit its interests to the court, to obtain its decision on this matter and, if desired, to use legal remedies against that decision, partly on the basis of the provisions of art. 6 ECHR enshrined principle of access to justice. The requirements of due process do not only result in standards for the way in which the parties should behave towards each other, but also standards for the actions of the parties towards the judge, as well as for the actions of the judge towards the parties. In principle, any form of (imminent)

unlawful proceedings lead not only to an action for damages, but also to a claim for injunction, but that limits are only set with restraint. This reluctance is consistent with the fundamental nature of the right of access to justice. Chopping the notarial deed with the blunt ax or defamatory insults, disrespect and contempt for "Hitler's Inferno", the foundation absolutely cannot and does not wish to

to tolerate these malpractices when contesting the copy of the notarial deed.

Denying someone the right to litigate remains the exception. "Groningen national university the good process order"

Despite a reticence that is consistent with the fundamental nature of the right of access to justice for the State of the Netherlands , the foundation will aim for a <u>ban</u> on <u>litigating for the State of the Netherlands</u>. This requires a thorough story and file about facts and circumstances from which it could appear in advance that the State of the Netherlands abuses the right (to litigate, for example) - which has been made reasonably concrete. must be done by the foundation - whereby the civil court must be approached. The latter can then determine that the right to contest the copy of the notarial deed of 21 June 2007 does not apply after all. That is and remains an exception if abuse of rights has to be made. In order to deprive such access to the courts, the substantiated assertion is therefore especially necessary that the State of the Netherlands intends to abuse the law in advance. ( Public prosecutor's office at the Supreme Court abuse of procedural law ECLI:NL:PHR:2019:702).

#### Jurisdiction.

Judiciary is the settlement of disputes by means of an authorized body. It is important that the body (the judge) is completely independent. In addition, a judge may not refuse justice. It is the task of the government to ensure the administration of justice. It is important that the judge is completely independent. This independence must be guaranteed by a number of factors

In the event of a dispute about the copy of a notarial deed under oath dated. June 21, 2007 by the

Dutch State, the judge must be chosen with care and must have a good knowledge of history and subscribe to the importance of history as a lesson for the future and the judge must also propagate this in his policy. in such a way that the name of Audio-Rarities, of the foundation and of

third parties (persons and companies) involved in the "Hitler's Inferno" project not at least is wrongly associated with Nazism or neo-Nazis or that name damage occurs in any other way. Refer to our letter of 28 April 2014, which the Minister of General Affairs, Mark Rutte, received from our foundation via the State Attorney.

The current fear by the foundation that the judges are biased may be subjectively standards are measured, referring to various annual reports by this foundation. Validly literally stuck -as far as not disputed- the sworn statements by the various notarial deeds with one copy of summarizing the rectification document, which from June 21, 2007.

The principles of due process are intended to ensure that the process for the op conducted in a fair and just manner that enables each party to conduct the process properly.

The principle of equality on arms assumes that both the defense and the defense the plaintiff with the same file and with the same means.

The ECHR has also emphasized that the right to a fair trial as referred to in Article 6(1) of the European Convention for the Protection of Human Rights and Fundamental Freedoms (ECHR) includes giving each party a reasonable opportunity or given the opportunity to argue their case without being in a substantially unequal position vis-à-vis the other party."

# The rule of law and democracy in the Netherlands.

The Netherlands is a constitutional state and a democracy (that is and has never been disputed by IFUD or Human Rights). However, the practical development and implementation in the legal system and constitutional democracy, and implementation proved quite mis. De sworn statements in notarial deed under oath several notarial acts against the State of the Netherlands in a summary rectification deed notarized by 21 June 2007, is clear on the **elaboration and implementation** of the legal system and the rule of law. Let me be clear about this, and I wish to stand by my sworn statement. The report on the rule of law 2021 Country chapter on the Netherlands by the European Commission Brussels, 20.7.2021 SWD(2021) 721 final, will not change either.

On February 25, 2021, the House of Representatives, in accordance with the procedure of Article 30 of its Rules of Procedure, through Mrs. Khadija Arib President of the House of Representatives

of the States General, decided to ask the Venetia Commission of the Council of Europe for advice on the rule of law in the Netherlands, Venetia Commission of the Council of Europe, attn. Granata-Menghini.

# According to the committee's report:

In this respect, upholding the rule of law is not just about – according to Venice Commission report – Strasbourg 18 October 2021 Opinion No. 1031/2021 CDL-AD(2021)031 Or. Engl., om:institutions and formal legal safeguards, but also about maintaining a favorable climate for the rule of law through the political and legal culture within society. This requires a political culture with a high degree of awareness of the rule of law consequences of political decisions and self-control when politically desirable measures conflict with the rule of law. It also requires a legal culture in which the rule of law is accepted as a framework for and limitation to democratic decisions and policies.

ABSTRACTS, by European Commission in 2021

An integral parliamentary public inquiry will first have to be carried out into the state of the rule of law and democracy. IFUD of Human Rights does not intend to waive the notarial deed under oath. June 21, 2007. The content is "literally fixed" (CAO standard reference HR) and all attachments to the deed are actually included. The notary is prohibited from issuing a grosse with an enforceable title on this deed.

The Collective Labor Agreement standard is a purely linguistic explanation of the provision(s) of the notarial deed. This method of explanation is based on the literal wording of the deed. The collective labor agreement standard therefore does not prescribe a grammatical explanation. However, proof to the contrary that the intention of the parties is different from what follows from the wording in the deed is possible. # <u>Undisputed claims and European Enforcement Order (EET).</u>

The concept of "uncontested claims" should cover all situations where a creditor, having regard to the fact that the debtor has not contested the nature or extent of a claim, has obtained a judicial decision against that debtor or enforcement order to which the debtor must expressly agree, in the form of a court-approved settlement or an authentic instrument. Validation of the notarial rectification deed as a European Enforcement Order will be treated separately after the foundation has obtained the enforceable title declared by the Dutch court on the relevant rectification deed. The absence of a dispute or inadmissibility by the State of the Netherlands may take the form of defaulting at the hearing or of failing to comply with a request from the court to indicate its intention to defend itself in writing in the case. In its Tampere conclusions, the European Council considered that access to enforcement in a Member State other than the one in which the judgment was given should be made faster and simpler, as the intermediate measures to be taken in the Member State of enforcement before the judgment can be enforced is abolished. A decision certified as a European Enforcement Order by the court of origin should be treated in the same way with regard to enforcement as a decision given in the Member State of enforcement. A judicial decision which was delivered in one of the EU member states on an uncontested claim to European Enforcement Order (EEO) rage authenticated. A decision certified as EET can be enforced in all Member States of the European Union without the need for further procedures.

#### Holocaust Museum.

Support for the United States Holocaust Memorial Museum plays an important role in Its mission to enhance the lasting relevance of Holocaust memory and education in the constantly changing world. That is why the foundation has invested **ninety percent** of the amount

noted copy of the notarized deed donated to Planned Giving and Endowments of the United States Holocaust Memorial Museum, Washington DC. The foundation may assume that the museum is a good steward of the donation after the court has awarded the claim.

# Hate speech code of conduct.

During the Dutch presidency of the Council of the European Union in 2016, the European Commission, together with Facebook, Microsoft, Twitter and Google/YouTube, presented a Code of Conduct to combat online hate speech. The most important best efforts obligation arising from the Code of Conduct concerns the settlement and possible removal of hate speech after reports from users within 24 hours. In addition, the Code of Conduct contains agreements on monitoring the agreements. The Netherlands has already been reprimanded about this subject by the European Commission against Racism and Intolerance (ECRI). "In a report on the Netherlands, she concludes that the current approach to online insults and statements that incite hatred is not sufficient. European Commission - Press release

Commission proposes to extend the list of "EU crimes" to include hate speech and hate crimes

Brussels, December 9, 2021

Today the European Commission presents an <u>initiative</u> to the list of "European crimes" to extend to <u>hate speech and hate crimes</u>, as announced by President von der Leyen in her State of the Union 2020 speech.

Hate speech and hate crime have increased dramatically across Europe and are a particularly serious and worrying phenomenon – offline and online. Joint EU action is needed to address this EU-wide challenge. However, there is currently no legal basis to criminalize hate speech and hate crime at EU level. The existing list of EU crimes in the Treaty on the Functioning of the European Union (TFEU) should be extended to ensure common minimum rules for the definition of criminal offenses and sanctions applicable in all EU Member States. Today's initiative is the first step in the process of expanding the list of EU crimes. The next step would be for Member States to

initiative before the Commission can present a legislative proposal.

Vice Chairman of Values and Transparency, Věra Jourová, said: "Hate does not belong at home in Europe. It goes against our fundamental values and principles. We have EU action needed to ensure that hatred exists throughout Europe criminalized in the same way."

Justice Commissioner Didier Reynders said: "We need a strong response to the challenges posed by hate speech and hate crime across the EU: now and in the future. Today's initiative is an important step towards a more effective European response to such threats to pluralism and inclusiveness. We will not allow such a phenomenon to weaken our democracies."

# Key elements of the communication:

Today's initiative provides evidence for expanding the list of EU crimes to include hate speech and hate crime in light of the criteria of Article 83(1) TFEU:

The cross-border dimension of hate speech and hate crime:

online hate speech spreads quickly and is accessible to everyone everywhere. The ideologies behind hate speech and hate crime can be developed internationally and quickly shared online. Hate crimes can be committed by networks with members from different countries.

Hate speech and hate crime as a crime area: the Commission considers that hate Speech and hate crimes are an area of crime because they share an intrinsic special feature, namely 'hate' directed at individuals or groups of individuals who share (or are perceived to share) protected traits.

Hate speech and hate crime as an area of particularly serious crime :

incitement to hatred and hate crimes are particularly serious crimes because they undermine the EU's common values and fundamental rights, as enshrined in Articles 2 and 6 of the <u>Treaty on European Union</u>, as well as in the <u>Charter</u>. They have harmful effects on individuals, their communities and society in general.

## Developments in crime:

the two phenomena have steadily increased due to:

various economic, social and technological changes and developments. The COVID-19 pandemic is one of the factors that contributed to this increase.

# No alternatives to expanding the list of EU crimes:

incitement to hatred and hate crimes are criminalized to varying degrees in the EU Member States. Only the extension of the list of EU crimes to include hate speech and hate crimes can enable an effective and comprehensive criminal law to address these phenomena at EU level, together with consistent protection of the victims of such acts.

# Next steps

The Council, acting unanimously, after obtaining the consent of the European Parliament, must adopt a decision identifying hate speech and hate crime as another area of crime fulfilling the criteria set out in Article 83(1) TFEU.

Thereafter, the Commission may propose to adopt legislation establishing minimum rules on the definitions and sanctions of hate speech and hate crime to be adopted by the European Parliament and the Council in accordance with the ordinary legislative procedure.

#### Background

The external study published today confirms the magnitude and disturbing trend of hate speech and hate crimes. The increase in hatred against, for example, Roma, Jews, Muslims and persons of Asian descent, or persons perceived as such, including racist attacks and beatings, violent bullying, threats and racial abuse has increased during the pandemic. sources found that 52% of young women and girls have experienced online violence, including threats and sexual harassment, while persons with disabilities are more likely to be victims of violent crime, including hate crime, than other individuals, and face intimidation.

Hate crimes and hate speech are contrary to the fundamental European values as set out in Article 2 of the Treaty on EU. under Article 83(1) of the Treaty on the Functioning of the EU ("TFEU"), the

The European Parliament and the Council may adopt minimum rules for the definition of criminal offenses and sanctions in the field of particularly serious crime involving a cross-border dimension. Such areas are, for example, terrorism, human trafficking and sexual exploitation of women and children. On the basis of developments in crime, the Council may take a decision in which other

areas such as this one, allowing the Commission – in a second step – to propose a robust framework to tackle hate speech and hate crime at EU level. At EU level, there is already a framework for a strong common response to racist and

xenophobic hate speech and hate crime by the Council Framework Decision on combating certain forms and expressions of racism and xenophobia through criminal law. The frame Decision aims to ensure that serious expressions of racism and xenophobia are punishable

effective, proportionate and dissuasive criminal sanctions across the EU. It requires Member States to criminalize hate speech, ie public incitement to violence or hatred, on the basis of race, colour, religion, descent or national or ethnic origin. It also requires Member States to ensure that criminal offenses other than hate speech, that such racist and xenophobic motivation is considered an aggravating circumstance, or that such motivation can be taken into account in the determination of penalties. The Commission supports Member States' efforts to implement the Framework Decision effectively through the work of the High Level Group on Combating Racism, Xenophobia and Other Forms of Intolerance. Today's initiative is part of a wider set of EU actions to combat illegal hate speech and violent extremist ideologies and terrorism online, such as the EU Code of Conduct for Combating Illegal Hate Speech Online, the proposed Digital Services Act, the Regulation on tackling terrorist content online and the EU Internet Forum.

This initiative supports the EU Action Plan against Racism 2020-2025 and the Strategy for Combating Anti-Semitism and Promoting Jewish Life in the EU, as well as the Strategy for Gender Equality 2020-2025.

#### Framework decision.

Brussels, 27.1.2014 COM(2014) 27 final

# REPORT FROM THE COMMISSION TO THE EUROPEAN PARLIAMENT AND THE COUNCIL{SWD(2014) 27 final}

on the implementation of Council Framework Decision 2008/913/JHA on combating certain forms and expressions of racism and xenophobia through criminal law.

On 9 June 2021, the European Commission decided to send letters of formal notice to the Netherlands and some other EU Member States, as their national legislation does not fully or accurately transpose EU rules on combating racism and xenophobia through criminal law (Framework Decision 2008/913/ of the Council JHA). The aim of this Framework Decision is to ensure that serious expressions of racism and xenophobia, such as public incitement to violence or hatred, are punished by effective, proportionate and dissuasive criminal sanctions.

#### Monument of names.

The Dutch government has earmarked more than 8.5 million euros for the establishment of the Holocaust Museum in Amsterdam. King Willem-Alexander unveiled the Holocaust Memorial of Names in Amsterdam on Sunday 19 September 2021. Outgoing Prime Minister Mark Rutte and Amsterdam Mayor Femke Halsema gave a speech. State Secretary Blokhuis of Health, Welfare and Sport was also present.

But that does not mean a license for the photoshopped images of dignitaries of the Dutch government with swastikas, SS signs and Hitler mustaches that keep appearing online. IFUD of Human Rights has written several times to get the government to change its mind on this issue, stop it and actually start taking action.

#### The German National Anthem.

Adolf Hitler called the national anthem "Deutschland, Deutschland über Alles" on August 1, 1937 "the song sung to us Germans at the most sacred revelation". From 1940 the Horst Wessel song was added to the Deutschlandlied each time. Millions of people sang themselves, Germany and the "Ostmark" recorded in "Her Blood and Her Grave". It came as no surprise that in 1945 the Allies in Germany banned both songs, like All-National Socialist songs. The link of the

"Deutschlandlied" with the "Horst-Wessel-Lied" during the Nazi regime of the Nazi regime severely damaged the (text and melody) of Joseph Haydn and the lyrics of Heinrich Hoffmann von Fallersleben. The German national anthem reminds too much of the Nazis. I want them to stop doing this, (refer copy of notarial rectification deed of June 21, 2007).

# Explanation.

Verfassungswidrige Kennzeichen - (§§ 85, 86a stcB)

After Hitler's seizure of power in 1933, the Nazis used the first verse of the 'Deutschlandlied' as the introduction to the 'Horst-Wessel-Lied', the official party hymn of the NSDAP. The Supreme Court of Oldenburg (Germany) ruled in 1987 on the use of the Horst-Wessel-Lied, and it follows that the melody is also prohibited, and changes in the text. This applies in particular to the melody and also to the interpretation of the melody with modified text.

The foundation is of the opinion that, as with the "Horst-Wessel-Lied", the melody is also prohibited

is "same assessment", and change in the lyrics of the German national anthem from 1952 accepted. Thus, this applies in particular to the melody and also to the interpretation of the melody with modified text. So that one will adhere to the jurisprudence of the higher court of Oldenburg, the ruling from 1987, when assessing the current national anthem of Germany.

# The investigation of history.

Pursuant to art. 25 paragraph 1 sub c Copyright law, the creator of a work " has the right to oppose any other change in the work. With the LP "Hitler's Inferno" we are dealing with an orphaned work, where the opinion of the creator no longer can be requested. That is why the foundation now has to make a decision based on history, jurisprudence, and the investigations recorded by the foundation. After 1945, their practices in post-war Germany were whitewashed and people showed 'understanding'.

Former Nazis made a career as judge, professor, doctor or politician. "Career Nazis" The cruel practices of German war criminals and how they stayed at the top after 1945. By filling out a form, the former Nazis were, as it were, laundered of guilt for the crimes of the Third Reich. After a popular detergent from that time, such a license was called Persilschein.

# The Rosenburg Files.

Foreword (Heiko Maas Minister of Justice and Consumer Protection Federal Republic of Germany).

The Nazi dictatorship committed unthinkable crimes and brought great suffering to Germany and the world. The cooperation of the legal system and lawyers with the Nazi regime is well documented in academic studies. Previously, however, it was an open secret that many lawyers guilty of crimes returned to West German civil service after the founding of the Federal Republic of Germany in 1949. The independent academic commission set up to investigate the conduct of the Federal Ministry of Justice with its Nazi past, the "Rosenburg-Projekt", has made an intensive study of personnel continuity and its consequences. U.S Ministry gave the researchers full access to all files for the first time. I would like to express my deepest gratitude to the two heads of the Commission, Professor Manfred Görtemaker and Professor Christoph Safferling, and their entire team for their committed work.

# Prime ministers Kok, Balkenende and Rutte.

In the past, the foundation wrote letters to Prime minister, Wim Kok, about this. The reason that the Netherlands does not want to stop the song will lie in the fact that they do not want to damage the relationship with Germany, with reference to trade interests.

# Trading partner Germany.

The Dutch-German trade volume is one of the largest worldwide with EUR 172 billion in 2020, according to Destatis. Germany is the Netherlands' first trading partner, both in terms of exports and imports. According to the German 'Auswärtiges Amt', only the economic interconnectedness of the US and Canada is even stronger than that of Germany and the Netherlands. Moreover, the Netherlands is the most important transit country for the EU, with the port of Rotterdam playing a central role. And Germany is of great importance for the maritime supply and removal of the port of Rotterdam, because it is the most important transition country for the Netherlands to other European countries. It goes without saying that both countries work closely together in the fields of infrastructure, transport, telecommunications and water management (source: Deutsch-Niederländische Handelskammer).

## First disclosure.

The first disclosure under the title "Hitler's Inferno" has been published in November 1945 by Audio Rarities in the USA on 33 1/3 rpm LP (release WW2) end of the war, in memory of.. (yesterday's lesson) with an anti-fascist commentary. Hitler's Inferno and its successive tragedies point to the inability of humans to resist the destructive impulses of paranoid dictators like Hitler, Stalin, Pol Pot to check. When the first news about the concentration camps aired in May 1945, there was a great sense of indignation. "it would never more may happen in the civilized world".

Under Dutch copyright it must be assumed that the plate qualifies as a work of literature, science or art within the meaning of art. 1 yo. art. 10 copyright law (AW). An important factor in this qualification is that the plate has its own, original character that bears the personal stamp of the maker. The fact that the record consists for the most part of a recording of German sound recordings does not alter this. Because the German sound recordings are placed in an order chosen by the maker and are provided with anti-fascist commentary, a new original work has been created within the meaning of Dutch copyright law. Heritage institutions, such as libraries, archives and museums, are in principle also obliged to request permission from the rightholders if they wish to digitize copyright-protected work from their collection and make it available online. In practice, it appears that the rightholders of many works can no longer be traced, even with careful effort. Such works are called 'orphan' works. The European Orphan Works Directive ('Orphan Works Directive'), which will be implemented in Dutch law in 2014, makes it possible to make orphan works available online after a careful search.

# In conclusion.

- 1. If there are still intentions to contest the copy of the notarial rectification deed of 21 June 2007. For the time being, there is a serious suspicion on this side that the foundation's fundamental right to an independent court will be violated by the State of the Netherlands. On March 9, 2020, the round table discussion 'Dikastocracy?' place in the House of Representatives On behalf of the judiciary, Geert Corstens (former president of the Supreme Court) and Henk Naves (chairman of the Council for the Judiciary) emphasized that the judge may not refuse to grant justice,
- 2. the State of the Netherlands has <u>only</u> disputed the enforceable title issued by the notary as a grosse, and not the further content as a copy of the notarial deed,
- 3. an enforceable order may only be issued by the court in this case, the foundation must offer the Dutch State the opportunity for a fair dispute before the court,
- 4. the foundation may demand "equality of arms" in the proceedings against the State of the Netherlands. The principle of "equality of arms" means that the foundation and the State of the Netherlands must be granted the right to a fair trial. This principle essentially means that the foundation must be granted procedural equality vis-à-vis the State of the Netherlands in order for the State of the Netherlands to have access to court in order to be able to contest. Finally, failing to provide free legal assistance under the foundation's circumstances may also conflict with the principle of equality of arms,
- 5. The IFUD Foundation of Human Rights and Audio-Rarities with "Hitler's Inferno" believe that they have <u>been treated generally disrespectful and uninterested by the various layers of government from top to bottom with perhaps a few exceptions. foundation is <u>deliberately</u> excluded, refer to ostracism,</u>
- 6. In light of the increase in anti-Semitic violence and hate crime, the European Commission will also propose a comprehensive strategy to combat anti-Semitism, complementing and supporting the efforts of Member States, (Brussels, 19.10.2020 COM(2020)) 690 final).

7). The United Nations Committee is concerned in the country report on the Netherlands that a large number of hate speech remains online for weeks, sometimes even months and years. The Committee recommends that the State party take measures to end the ban on hate speech on the Internet (report on the netherlands CERD /C/NLD/CO/22-24 ADVANCED RAW VERSION Dist.: General Date: 25 August 2021 Original: English).

# Member States' compliance with EU values.

A regular check with respect to the values on which the EU is based and which the member states have agreed to monitor whether the member states have fulfilled their obligations in combating hate crimes. Special emphasis should be placed on the effective enforcement of laws. Neglect or non-compliance with current EU law should then lead to infringement proceedings, with EU sanctions loss of privileges or suspension of Member State rights.

Geachte heer van den Wittenboer,

Via de Landsadvocaat ontving ik een door u –als voorzitter van de IFUD of Human Rights- ondertekende sommatie om een op 21 juni 2007 verleden notariële akte te betwisten.

In het archief van mijn ministerie trof ik correspondentie tussen U en mijn ambtsvoorgangers W. Kok en J.P. Balkenende uit de periode van 1997 tot en met 2008 aan, alsmede een vonnis van de Rechtbank Den Haag van 21 februari 2008.

Ik verwijs naar die rechterlijke uitspraak en naar de brief van toenmalig Minister-President Balkenende van 28 maart 2008, kenmerk 3318172. Beiden hebben betrekking op dezelfde notariële akte. Aan de inhoud van die laatste brief –waarvan ik een copie bijsluit- heb ik niets toe te voegen. Het standpunt is onveranderd.

Hoogachtend,

DE MINISTER-PRESIDENT, Minister van Algemene Zaken,

sector civiel recht - voorzieningenrechter Vonnis in kort geding van 21 februari 2008, gewezen in de zaak met rolnummer KG 07/1314 van:

#### [eiser],

wonende te [woonplaats],

in persoon verschenen,

tegen:

#### de Staat der Nederlanden,

zetelende te 's-Gravenhage,

waarvoor verschenen is de heer [gemachtigde] (Ministerie van Justitie),

in welke zaak gerechtsdeurwaarder **[deurwaarder]** te Den Haag zich bij proces-verbaal van 31 oktober 2007 tot de voorzieningenrechter heeft gewend op grond van artikel 438 lid 4 Wetboek van Burgerlijke Rechtsvordering.

Partijen zullen hierna worden aangeduid als [eiser] , de Staat en de deurwaarder.

#### 1De feiten

Op grond van de stukken en het verhandelde ter zitting van 6 februari 2008 wordt in dit geding van het volgende uitgegaan.

[eiser] heeft bij aangetekende brief van 10 oktober 2007 onder meer een grosse van een notariële akte (hierna ook: de notariële akte) aan de deurwaarder doen toekomen, met het verzoek deze te betekenen aan de schuldenaar (de Staat) en executoriale maatregelen te nemen. De notariële akte, verleden ten overstaan van notaris [notaris] , notaris te Budel (gemeente Cranendonck) op 21 juni 2007, bevat een eenzijdige verklaring van [eiser] , onder meer inhoudende dat de Staat hem schuldig is een bedrag van € 20.040.000,--.

#### 2Het geschil en de beoordeling daarvan

2.1.

De deurwaarder heeft zich tot de voorzieningenrechter gewend omdat ten aanzien van de executie van de notariële akte bezwaren zijn gerezen: de akte heeft weliswaar de kenmerken van een voor executie vatbare titel, maar de inhoud ervan is onsamenhangend en de notariële akte is bovendien buiten medeweten van de Staat tot stand gekomen. Volgens de deurwaarder kan de notariële akte daarom niet geëxecuteerd worden. 2.2.

De voorzieningenrechter is van oordeel deze bezwaren gegrond zijn. Anders dan [eiser] kennelijk meent betekent het enkele feit dat de eenzijdige verklaring van [eiser] is vastgelegd in een notariële akte nog niet dat er sprake is van een schuld van de Staat aan [eiser] . De notariële akte levert slechts dwingend bewijs op van het feit dat [eiser] ten overstaan van de notaris de in de notariële akte opgenomen verklaring heeft afgelegd. Noch de omstandigheid dat de Staat voorafgaand aan het verlijden van de notariële akte hierover zou zijn geïnformeerd – daargelaten of dit (rechtsgeldig) is gebeurd –, noch het feit dat de Staat de vordering niet (op enige wijze) heeft betwist, kan aan het voorgaande afdoen. Aan hetgeen verder nog door [eiser] is aangevoerd wordt voorbijgegaan nu dit geen wijziging in het hiervoor overwogene meebrengt.

De conclusie is dat de notariële akte niet voor executie jegens de Staat vatbaar is. Het zal de deurwaarder daarom worden verboden om deze te executeren.

2.4.

De voorzieningenrechter merkt nog op dat op het verzoek van [eiser] tot waarmerking van de notariële akte als Europese executoriale titel afzonderlijk behandeld zal worden.

2.5.

[eiser] zal, als de in het ongelijk gestelde partij, worden veroordeeld in de proceskosten van de Staat. Voor het overige is er geen aanleiding tot een proceskostenveroordeling.

# 3De beslissing

De voorzieningenrechter:

verbiedt de deurwaarder de onder 1 bedoelde notariële akte ten uitvoer te leggen;

veroordeelt [eiser] in de kosten van het geding tussen hem en de Staat, tot dusverre aan de zijde van de Staat begroot op € 254,-- aan griffierecht.

Dit vonnis is gewezen door mr. R.J. Paris en uitgesproken ter openbare zitting van 21 februari 2008 in tegenwoordigheid van de griffier.

# Intermediary Foundation of the Universal Declaration of Human Rights

#### REGISTERED POST

Aan: STAAT DER NEDERLANDEN (gemachtigde) Minister van Justitie en Veiligheid mr. F.B.J. Grapperhaus

Postbus: 20301

2500EH, DEN HAAG

- 1. (Authorized Intermediary Foundation of the Universal Declaration of Human Rights on behalf of Audio-Rarities), Kastanje28, 5731NK Mierlo.
- 2. (Authorized Minister of Justice and Security FBJ Grapperhaus on behalf of the public legal entity Staat der Nederlanden, (in this case acts as legal person under private law).

Subject: Approximate outstanding debt "provisional overview"

Mierlo, January 2, 2020

His Excellency Grapperhaus,

I hereby send the State of the Netherlands a preliminary overview of the outstanding debt. The content of the notarial deed is inconsistent with the deed drawn up by the notary "Enforcement Order", herewith a photocopy of the deed "without the Enforcement Order on it". That would then the judge must have that title.

Rb. The Hague (Vzr.) February 21, 2008 KG 07/13 14 from: (client) appeared in person, against:

the State of the Netherlands, with its seat in The Hague, for which appeared is Mr. JJF Versluijs (Ministry of Justice), in which case bailiff Jan-Anne de Swart in The Hague, by official report from 31 October 2007 to the a preliminary relief judge has applied under Article 438, paragraph 4 of the Dutch Civil Code Legal action. Parties will hereinafter be referred to as [principal], the State and the debt collector.

1. The facts

Based on the documents and the proceedings at the session of 6 February 2008, this litigation proceeded from the following. [client] has registered letter of 10 October 2007 included a majority of a notarial deed (hereinafter also: the notarial deed) forward the bailiff, requesting that it be served on the debtor (the State) and take enforcement measures. The notarial deed, executed before notary mr. THJM op de Laak, notary in Budel (municipality of Cranendonck) on 21 June 2007,

contains a unilateral statement by {principal}, including that the State he **owes** an amount of  $\in$  **20,040,000**.

- 2. The dispute and its assessment
- 2.1. The bailiff has turned to the preliminary relief judge because with regard to the execution of the notarial deed objections have arisen: the deed does have the characteristics from an executable title to its content is incoherent and notarized the deed was also drawn up without the knowledge of the State. According to the bailiff the notarial deed cannot therefore be executed.
- 2.2. The preliminary relief judge is of the opinion that these objections are well founded. Contrary to what [client] apparently thinks it means mere fact that the unilateral statement by [client] is recorded in a notarial deed not yet that there is a debt of the State to [principal]. The notarial deed only provides compelling evidence of the fact that [client] vis-à-vis the notary has made the statement included in the notarial deed. Neither the circumstance that the State would be prior to the execution of the notarial deed not informed whether this has been done (legally) or whether the State has not (in any way) disputed the claim, may change the foregoing. To what further has been put forward by [client] is passed now that this does not change the considerations considered for this.

#### 2.3. The conclusion is that the notarial deed

is not subject to execution against the State. It will therefore be banned the bailiff to execute it.

2.4. The preliminary relief judge remarks

that at the request of {principal} to certify the notarial deed as European enforcement order will be treated separately.

2.5. [client] will,

as the unsuccessful party, be ordered to pay the costs of the proceedings of the State. For the rest, there is no reason to pay a legal costs order.

3. The decision

The preliminary relief judge:

prohibits the bailiff from executing the notarial deed referred to in (1).

#### Summary.

IFUD of Human Rights:

Published JP van den Wittenboer trading under the name Audio-Rarities located in Mierlo against the State of the Netherlands, seated in The Hague, for which has been published Mr JJF Versluis Ministry of Justice. Van den Wittenboer is aware of the fact that He has to bring the case before a civil court through civil proceedings. The granting of the enforceable title is thus up to the civil court - with the right to contest the content of the notarial deed by the State of the Netherlands. The a preliminary relief judge forbids the bailiff the notarial bulk issued by the notary To implement "in the name of the Queen". The State has indicated in writing none to initiate forgery against the further content of the "Notarial deed under oath declaration" past in front of notary master Th JM op de Laak notary in Budel, municipality of Cranendonck, on June 21, 2007. Such as that of February 212008 on the basis of the judgment of the District Court in The Hague - judge Judge KG 07/1314- in which case bailiff Jan Anne de Swart in The Hague

joined official report to the preliminary relief judge has applied under Article 438, paragraph 4 Code of Civil Procedure. The summary proceedings are essentially limited to investigate whether the power to execute has been abused, and does not concern the content of the notarial deed and under oath. The notary is prohibited by the preliminary relief judge to enforce the executory title to the notarial deed of 21 June 2007 In general, the parties can, if desired, issue binding advice in a notarial opinion have a deed recorded and - deliberately and voluntarily - agree, that this ground for one an enforceable title, insofar as the obligations laid down in it lend themselves to it effective implementation. In this case, there was no voluntary action on the part of the State the Netherlands and there was talk of the deed not signed by the State. The legislator explicitly places heavy demands on obtaining an enforceable title. The enforcement of an enforceable title is mandatory and serves this purpose reason to be preceded by court intervention.

#### Summarized:

the enforceable title in this case is based on the previous assessment of the civil judge, with the right prior to the State of the Netherlands, disputing the content of the notarial deed -only that which may be freely open to dispute - without forgery procedure open to challenge. Uncontested claims:

The concept of uncontested claims should be used to all situations in which a creditor - in view of the fact that it has become apparent - that the debtor does not contest the nature or extent of a claim, one by civil enforcement order, which the debtor must expressly agree to in the form of - in this case - the authentic instrument. The lack of dispute by the debtor the State of the Netherlands, may take the form of "default" with the hearing or not responding to a request by the court for the intention to state that you will defend yourself in writing in the case. To make sure that the Dutch State very well known in this case and the notarial deeds and Hitler's Inferno lesson from yesterday", the Intermediary Foundation of the Universal Declaration of the Human Rights to have the documents extra meant by a bailiff afterwards. writ of 9 March 2016 under number L3600573, Van der Velden van Hal & Peers bailiffs & collection agency established in The Hague, to the Chairman of the House of Representatives of the States General The Dutch parliament the Standing Committee of Security and Justice part of the bailiff's exposition, to be found under the Lower House of the States General V&J to the foundation, date September 16, 2014, reference: 2014Z14890 / 2014D30693. Ten At the time of the 2014 letter, the two gentlemen Van der Steur and Dijkhoff were members of de Vaste Commission of Security & Justice of the House of Representatives of the States General, these are

subsequently appointed as the new Minister of Justice and Secretary of State for Justice. From this follows that the Ministry of Justice and Security is also well aware of notarial deeds and further with information about Audio-Rarities the foundation and Hitler's Inferno. Everything is there on data DVD-ROM as attachment of the relevant letter that is part of the bailiff's exposition to the House of Representatives, previously confirmed by V&J on 16 September 2014 to the foundation. Now that the Ministry of Justice is well aware of all documents and through the transfer files at the Ministry when new ministers take office the State of the Netherlands is also considered to be well known for this. The State also has internal consultations can conduct with the country attorney in connection with specific legal details in this case. At the office of the lawyer are lawyers and also lawyers with notarial law background working. After all, in 2008 the Ministry of Justice raised the issue To represent the State of the Netherlands in court against Audio-Rarities in court in The Hague in summary proceedings. The State of the Netherlands received a written letter in 2008 Balkenende and later announced with a letter from Rutte- not intending to to initiate forgery. It has also been shown after 2008 that the State of The Netherlands has adopted such an attitude "not to be contested". The civilian judge will grant an enforceable title to the notarial deed upon request "in absentia" of the foundation that works for Audio-Rarities, to file a lawyer. The civil judge will grant the executory title on pain of denial of justice. The judge will not alter the content of the notarial deed that is before the court fixed because this is supposed to be the case by law

#### Parties:

a.the legal person under public law of the State of the Netherlands, Binnenhof 19, The Hague, NL, where the legal person under public law is the The Dutch State did not act in the specific administrative task, but in the Entrepreneurs public relations activity, and science, there is no sufficient ground hair to be treated differently from legal entities under private law that have the same or perform similar activities.

b. the sole proprietorship: Audio-Rarities, Kastanje 28,5231 NK, Mierlo, NL, director JP van den Wittenboer who, at the express invitation of the State of Netherlands "Ministry of Economic Affairs in The Hague" a legal relationship has been contracted for "fair use only" with the project "Hitler's Inferno" in connection with doing business in Japan in nineteen hundred and ninety eight, by the Dutch furnace in connection with four hundred (400) years of trade relations between the Netherlands and Japan. On the twenty-first of September nineteen hundred and ninety "speaking days" have passed Audio-Rarities Mr JP van den Wittenboer at the address of the Ministry of Economic Affairs Affect the license terms for "fair use only" personally and verbally with "Hitler's Infemo "project discussed in depth. Talked with Mr. Hendrik EC Koets. There is none

written "fair use only agreement" established between the State and Audio-Rarities, but it is one written confirmation by the Dutch State on fourteenth December nineteen hundred and ninety, shipped from Tokyo, Japan, in which the mondetinge ranks from twenty one September nineteen hundred and ninety and what has been discussed is briefly summarized The State has voluntarily elected itself.

## IS A ORAL AGREEMENT LEGAL? E.R. Jonker (Erwin) Ariens Schoonbeek Lawyers ariensadvocaten.nl

The answer to this question is affirmative. Yes, an oral appointment is also one agreement because according to Dutch contract law an agreement will come namely, realized by an offer from a party and the acceptance of that offer by another party. Article 217 of book 6 of Dutch contract law provides for this

#### next one:

"An agreement is concluded by offer and acceptance thereof."

Under Dutch law, the establishment of contracts is subject to no further formal requirements in principle. An oral agreement is perfect legally valid. Offer and acceptance can be made in any form.

The Supreme Court, highest court of law in the Netherlands in its judgment of 21 December 2001, ECLI: NL: 2001: AD5352 said about this:

"The answer to the question whether an agreement has been concluded depends on what the parties have mutually stated and have from each other's statements distracted and could reasonably derive in the given circumstances."

Offer and experience do not therefore have to take place explicitly: they can be in any form and can be contained in one or more actual behaviors.

An acceptance of the offer can be made known by all means which are understood as such in society,

for example; raise a hand, or just nod yes. Under certain circumstances even a lack of action, a tolerance, as well as a mere silence as acceptance apply. In its judgment of February 4, 2000, NJ 2000/258, the Supreme Court gives one nice example:

"In the opinion of the court, Pelders has rightly argued that Kinheim is on this letter has not responded, so it must be assumed in law that Kinheim there has been - tacitly - agreed." Unlike a mere silence, that situation is much clearer in a case already there actual implementation has been given to an agreement. In the absence of one written agreement

or explicit agreements between parties, must be based on all other circumstances and indications are assessed or from any when a certain legal relationship exists. In Van den Eijnde / Fuchs judgment of the Supreme Court of 2 September 2011, ECLI: NL: HR: 2011: BQ3876, the Supreme Court has confirmed the following rule of law; also although a written contract is missing, the conclusion of an agreement is possible are also derived from an actual fact that exists between the parties at any time situation. In short; an oral agreement is fully legally valid.

Re: Werkbezoek september j.l.

Geachte heer Van den Wittenboer,

Onder verwijzing naar het gesprek op 21 september j.l. betreffende "Zakendoen Japan" heb ik de eer u het volgende te berichten. De afgelopen periode is dezerzijds getracht kanalen te vinden om bekendheid te kunnen geven aan de informatie rond de cd "Hitler's Inferno - de les van gisteren (getuigenis als les voor de toekomst)".

Zoals reeds in Den Haag besproken is dit geen eenvoudige aangelegenheid. Japan kampt zelf met een oorlogsverleden - waarvoor grote aandacht bestaat - maar waarover het nog moeilijk is te spreken. Voor wat de oorlog in Europa betreft bestaat wel degelijk de kennis, maar in de Japanse beleving heeft de eerdere opkomst van het facisme in Europa duidelijk een eigen dimensie.

Een tweetal dezerzijds benaderde "recordshops" (van belangrijke ketens) toonde geen bereidheid voor het t.g.t. opzetten van een display en ook voor toezending van nadere informatie bestond geen interesse. Met uw goedvinden zal ik deze weg dan ook verder staken en bezien of wellicht binnen meer wetenschappelijke kring belangstelling bestaat.

Geachte heer Van den Wittenboer,

Hierbij bevestig ik de ontvangst van uw brief, met bijlagen, van 11 december 1998 op 14 december daarna.

U heeft een tekst meegestuurd over de betekenis van de notariële akte, gebaseerd op hetgeen u aan informatie van een notaris hebt verkregen en verder daarover in de vakliteratuur hebt gevonden. U verzoekt de KNB de tekst waar nodig aan te vullen, dan wel een algemene uitleg te geven.

Naar aanleiding daarvan deel ik u mee dat de KNB een vereniging van notarissen en kandidaatnotarissen in Nederland is en als zodanig slechts algemene informatie op notarieel gebied verstrekt.
Dit geschiedt door de uitgifte van folders en informatiekaarten, door het periodiek uitgeven van een
krant voor cliënten van notariskantoren en door de instelling van de Notaristelefoon, waar ook algemene informatie kan worden ingewonnen. Concrete vragen kunnen door de KNB niet worden be-

In het algemeen kan ik u wel het volgende meedelen.

Notariële akten zijn akten opgemaakt door een notaris in functie. Eén van de voordelen van een notariële akte is dat de dagtekening, de echtheid en de juistheid van de notariële akte terstond vaststaan. Een ander voordeel is dat die akte steeds bewaard blijft en dat er dus altijd duplicaten van kunnen worden gemaakt. De akte wordt opgemaakt door een onpartijdige deskundige die er naar zal van oop poteniële de kellen dat rechterlijke procedures worden voorkomen.

Van een notariële akte kan een grosse, een officieel en gewaarmerkt bijzonder afschrift, worden uitgegeven. De daarop rechthebbende kan hiermee zonder rechterlijk vonnis zijn rechten uitoefenen.

Vanwege deze voordelen van een notariële akte en omwille van de rechtszekerheid heeft de wet voor sommige overeenkomsten en rechtshandelingen de notariële akte verplicht gesteld. PROPOSALS TO EXTEND THE LIST OF EU CRIMES TO ALL FORMS OF HATE CRIME AND FRANCE OF THE CRIME AND FRANCE OF THE CRIME OF THE CRI

#### CONTENT

Article 83(1) TFEU provides for an exhaustive list of areas of particularly serious crime with a cross-border dimension (known as 'EU crimes') for which the European Parliament and the Council may establish minimum rules concerning the definition of criminal offences and sanctions. Under Article 83(1), third subparagraph, based on 'developments in crime', the Council may adopt a decision (subject to the consent of the Parliament) extending this list by adding other areas of crime. The Commission may present an initiative to trigger such Council decision, through a Communication to the European Parliament and the Council.

On 16 September 2020, European Commission President von der Leyen announced, in her State of the Union Address at the European Parliament and in the accompanying letter of intent, a new initiative on extending the list of EU crimes to all forms of hate crime and hate speech - whether because of race, religion, gender or sexuality. It was later mentioned in the Commission Work Programme 2021 and in February 2021, the Commission published a roadmap on the initiative, scheduled for the fourth quarter of 2021.

The initiative will complement the work on a legislative proposal on preventing and combatting gender-based violence against women and domestic violence to be presented also by the end of 2021. According to the Commission, the list of EU crimes could be extended to cover hate speech and hate crime on the grounds of race, colour, religion, descent or national or ethnic origin. Further grounds under consideration are sex and sexual orientation, as well as disability and age.

2007, 63/162 of 18 December 2008, 64/147 of 18 December 2009, 65/199 of 21 December 2010, 66/143 of 19 December 2011, 67/154 of 20 December 2012, 68/150 of 18 December 2013, 69/160 of 18 December 2014, 70/139 of 17 December 2015, 71/179 of 19 December 2016, 72/156 of 19 December 2017, 73/157 of 17 December 2018 and 74/136 of 18 December 2019 on this issue, and its resolutions 61/149 of 19 December 2006, 62/220 of 22 December 2007, 63/242 of 24 December 2008, 64/148 of 18 December 2009, 65/240 of 24 December 2010, 66/144 of 19 December 2011, 67/155 of 20 December 2012, 68/151 of 18 December 2013, 69/162 of 18 December 2014, 70/140 of 17 December 2015, 71/181 of 19 December 2016, 72/157 of 19 December 2017, 73/262 of 22 December 2018 and 74/137 of 18 December 2019, entitled "A global call for concrete action for the total elimination of racism, racial discrimination, xenophobia and related intolerance and the comprehensive implementation of and follow-up to the Durban Declaration and Programme of Action",

Acknowledging other important initiatives of the General Assembly aimed at raising awareness about the suffering of victims of racism, racial discrimination, xenophobia and related intolerance and forms of discrimination, including in the historical perspective, in particular regarding commemoration of the victims of slavery and the transatlantic slave trade,

Recalling the Charter of the Nuremberg Tribunal, and the Judgment of the Tribunal which recognized as criminal, inter alia, the SS organization and its integral parts, including the Waffen SS, through its officially accepted members implicated in or with knowledge of the commission of war crimes and crimes against humanity connected with the Second World War, as well as other relevant provisions of the Charter and the Judgment,

*Mindful* of the horrors of the Second World War, and stressing in this regard that the victory over Nazism in the Second World War contributed to the establishment of the conditions for the creation of the United Nations, designed to prevent future wars and save succeeding generations from the scourge of war,

Recalling that, in 2020, the international community celebrates the seventy-fifth anniversary of victory over Nazism in the Second World War, and looking forward in this regard to the holding of a special solemn meeting of the General Assembly,

Recalling also that the seventy-fifth session of the General Assembly coincides with the seventy-fifth anniversary of the establishment of the Nuremberg Tribunal and the adoption of its Charter,

Noting that neo-Nazism is more than just the glorification of a past movement, it is a contemporary phenomenon with strong vested interests in racial inequality and an investment in gaining broad support for its false claims of racial superiority,

Recalling the relevant provisions of the Durban Declaration and Programme of Action adopted by the World Conference against Racism, Racial Discrimination, Xenophobia and Related Intolerance on 8 September 2001, in particular paragraph 2 of the Declaration and paragraphs 84 to 86 of the Programme of Action, as well as the relevant provisions of the outcome document of the Durban Review Conference of 24 April 2009, in particular paragraphs 11, 13 and 54,

Alarmed at the spread in many parts of the world of various extremist political parties, movements, ideologies and groups of a racist or xenophobic character, including neo-Nazis and skinhead groups, and at the fact that this trend has resulted

<sup>&</sup>lt;sup>9</sup> See A/CONF.189/12 and A/CONF.189/12/Corr.1, chap. I.

<sup>&</sup>lt;sup>10</sup> See A/CONF.211/8, chap. I.

in the implementation of discriminatory measures and policies at the local or national level.

Noting with concern that, even where neo-Nazis or extremists do not formally participate in government, the presence therein of extreme right-wing ideologues can have the effect of injecting into governance and political discourse the same ideologies that make neo-Nazism and extremism so dangerous,

Alarmed at music lyrics and video games that advocate racial hatred and incite discrimination, hostility or violence,

Concerned by the use of Internet platforms by groups that advocate hatred to plan, fundraise and circulate information about public events aimed at promoting racism, xenophobia and related intolerance, such as rallies, demonstrations and acts of violence.

Mindful of the role that the Internet can play in promoting equality, inclusion and non-discrimination.

Seriously concerned that neo-Nazi groups, as well as other groups and individuals espousing ideologies of hatred, have increasingly targeted susceptible individuals, mainly children and youth, by means of specifically tailored websites with the aim of their indoctrination and recruitment,

Deeply concerned by all recent manifestations of violence and terrorism incited by violent nationalism, racism, antisemitism, Islamophobia, Christianophobia, Afrophobia, xenophobia and related intolerance, including during sports events,

Recognizing with deep concern the continued alarming increase in instances of discrimination, intolerance and extremist violence motivated by antisemitism, Islamophobia and Christianophobia and prejudices against persons of other ethnic origins, religions and beliefs,

Underlining the existing lack of uniformity of norms regarding protected speech and expression and prohibited racial discrimination and advocacy of national, racial or religious hatred that constitutes incitement to discrimination, hostility or violence,

Noting with concern, in this regard, that the variation in national standards prohibiting hate speech may provide safe havens for neo-Nazi, extremist, violent nationalist, xenophobic or racist speech owing to the fact that many neo-Nazi and relevant extremist groups of a racist or xenophobic character operate transnationally by relying on Internet service providers or social media platforms,

Stressing that the purpose of addressing hate speech is not to limit or prohibit freedom of speech, but to prevent incitement to discrimination, hostility and violence, which shall be prohibited by law,

Expressing its concern about the use of digital technologies by neo-Nazis and other extremist and hate groups to disseminate their ideology, while recognizing that digital technologies are of great importance for the enjoyment of human rights and for combating racism, racial discrimination, xenophobia and related intolerance,

- 1. Reaffirms the relevant provisions of the Durban Declaration and of the outcome document of the Durban Review Conference, in which States condemned the persistence and resurgence of neo-Nazism, neo-Fascism and violent nationalist ideologies based on racial and national prejudice and stated that those phenomena could never be justified in any instance or in any circumstances;
- 2. Recalls the provisions of the Durban Declaration and of the outcome document of the Durban Review Conference, in which States recognized the positive contribution that the exercise of the right to freedom of expression, in particular by

20-14699 3/11

the media and new technologies, including the Internet, and full respect for the freedom to seek, receive and impart information can make to the fight against racism, racial discrimination, xenophobia and related intolerance;

- 3. Takes note with appreciation of the report of the Special Rapporteur of the Human Rights Council on contemporary forms of racism, racial discrimination, xenophobia and related intolerance, prepared in accordance with the request contained in its resolution 74/136;<sup>11</sup>
- 4. Expresses its appreciation to the United Nations High Commissioner for Human Rights and her Office for their efforts to fight racism, racial discrimination, xenophobia and related intolerance, including the maintenance by the Office of the United Nations High Commissioner for Human Rights of the database on practical means to combat racism, racial discrimination, xenophobia and related intolerance;
- 5. Expresses deep concern about the glorification, in any form, of the Nazi movement, neo-Nazism and former members of the Waffen SS organization, including by erecting monuments and memorials, holding public demonstrations in the name of the glorification of the Nazi past, the Nazi movement and neo-Nazism, declaring or attempting to declare such members and those who fought against the anti-Hitler coalition, collaborated with the Nazi movement and committed war crimes and crimes against humanity participants in national liberation movements, as well as by the renaming of streets glorifying them;
- 6. Calls for the universal ratification and effective implementation of the International Convention on the Elimination of All Forms of Racial Discrimination, and urges those States parties that have not yet done so to consider making the declaration under its article 14, thus providing the Committee on the Elimination of Racial Discrimination with the competence to receive and consider communications from individuals or groups of individuals within their jurisdiction claiming to be victims of a violation by a State party of any of the rights set forth in the Convention;
- 7. Urges States to eliminate all forms of racial discrimination by all appropriate means, including legislation as required by circumstances, while ensuring that the definition of racial discrimination set out therein complies with article 1 of the Convention;
- 8. Encourages those States that have made reservations to article 4 of the Convention to give serious consideration to withdrawing such reservations as a matter of priority, as stressed by the Special Rapporteur;
- 9. Acknowledges that discrimination on the basis of race, ethnicity or religion in all its forms and manifestations, including neo-Nazism, Islamophobia, Christianophobia and antisemitism, is a threat to social cohesion, not just to those racial and ethnic groups that are their direct target;
- 10. Recalls that any legislative or constitutional measures adopted with a view to countering extremist political parties, movements, ideologies and groups of a racist or xenophobic character, including neo-Nazis and skinhead groups and similar extremist ideological movements, should be in conformity with the relevant international human rights obligations, in particular articles 4 and 5 of the Convention and articles 19 to 22 of the International Covenant on Civil and Political Rights;
- 11. *Encourages* States parties to the Convention to take appropriate measures to ensure that their legislation is in accordance with their obligations under the Convention, including those under article 4;

<sup>11</sup> A/75/329.

- 12. *Stresses* that the rights to freedom of expression, peaceful assembly and association are important in supporting the fight against racism, racial discrimination, xenophobia and related intolerance worldwide;
- 13. Emphasizes once more the recommendation of the Special Rapporteur that "any commemorative celebration of the Nazi regime, its allies and related organizations, whether official or unofficial, should be prohibited" by States, <sup>12</sup> also emphasizes that such manifestations do injustice to the memory of the countless victims of the Second World War and negatively influence children and young people, and stresses in this regard that it is important that States take measures, in accordance with international human rights law, to counteract any celebration of the Nazi SS organization and all its integral parts, including the Waffen SS, and that failure by States to effectively address such practices is incompatible with the obligations of States Members of the United Nations under its Charter;
- 14. Expresses deep concern about increased frequency of attempts and activities intended to desecrate or demolish monuments erected in remembrance of those who fought against Nazism during the Second World War, as well as to unlawfully exhume or remove the remains of such persons, and in this regard urges States to fully comply with their relevant obligations, inter alia, under article 34 of Additional Protocol I to the Geneva Conventions of 1949; <sup>13</sup>
- 15. Firmly condemns incidents that glorify and promote Nazism, such as acts involving pro-Nazi graffiti and paintings, including on monuments dedicated to victims of the Second World War;
- 16. Expresses alarm over the use by neo-Nazi groups, as well as other extremist groups and individuals espousing ideologies of hatred, of information technologies, the Internet and social media to recruit new members, especially targeting children and young people, and to disseminate and to amplify their hatefilled messages, while recognizing that the Internet can also be used to counteract these groups and their activities;
- 17. Notes with concern the significant number of racist incidents worldwide, including the rise of skinhead groups, which have been responsible for many of these incidents, as well as the resurgence of racist and xenophobic violence targeting, inter alia, persons belonging to national or ethnic, religious and linguistic minorities, or on any other grounds, including arson attacks on houses and vandalization of and violence in schools and places of worship and cemeteries;
- 18. Reaffirms that such acts may, in certain circumstances, be qualified as falling within the scope of the Convention, that they may not be justifiable as exercises of freedom of peaceful assembly, freedom of association and freedom of expression and that they will often fall within the scope of article 20 of the International Covenant on Civil and Political Rights and may be subject to certain restrictions, as set out in articles 19, 21 and 22 of the Covenant;
- 19. Encourages States to take appropriate concrete measures, including legislative and educational ones, in accordance with their international human rights obligations, in order to prevent revisionism in respect of the Second World War and the denial of the crimes against humanity and war crimes committed during the Second World War;

<sup>&</sup>lt;sup>12</sup> A/72/291, para. 79.

<sup>&</sup>lt;sup>13</sup> United Nations, *Treaty Series*, vol. 1125, No. 17512.

- 20. Calls upon States to take active measures to ensure that education systems develop the necessary content to provide accurate accounts of history, as well as promote tolerance and other international human rights principles;
- 21. Takes note of the recommendation of the Special Rapporteur that education that seeks to undercut the racist effects of nationalist populism should include accurate and representative accounts of national history that give voice to racial and ethnic diversity and that expose the untruths of those who attempt to write ethnic groups out of national histories and identities in order to sustain ethnonationalist myths of racially or ethnically "pure" nations; 14
- 22. Condemns without reservation any denial of or attempt to deny the Holocaust, as well as any manifestation of religious intolerance, incitement, harassment or violence against persons or communities, on the basis of ethnic origin or religious belief;
- 23. Affirms its deep commitment to the duty of remembrance, and welcomes the call of the Special Rapporteur for the active preservation of those Holocaust sites that served as Nazi death camps, concentration and forced labour camps and prisons, as well as his encouragement to States to take measures, including legislative, law enforcement and educational measures, to put an end to all forms of Holocaust denial;<sup>15</sup>
- 24. Takes note of the conclusions of the Special Rapporteur that revisionism and attempts to falsify history may, in certain circumstances, fall under the prohibition of hate speech under article 4 (a) of the Convention, which States are required to declare as offences punishable by law, <sup>16</sup> and that neo-Nazi recruitment attempting to mainstream extreme ideologies or racial, ethnic or religious hatred and intolerance may fall under article 4 (b) of the Convention;
- 25. Calls upon States to continue to take all appropriate measures aimed at preventing and countering hate speech, including on the Internet, and incitement to violence against persons in vulnerable situations, including the organization of meetings and violent protests, fundraising and engagement in other activities;
- 26. Expresses serious concern regarding attempts to prohibit, at the legislative level, symbols associated in States with the victory over Nazism;
- 27. Expresses deep concern about attempts at commercial advertising aimed at exploiting the sufferings of the victims of war crimes and crimes against humanity committed during the Second World War by the Nazi regime;
- 28. Stresses the need to respect the memory and that the practices described above do injustice to the memory of the countless victims of crimes against humanity committed in the Second World War, in particular those committed by the SS organization and by those who fought against the anti-Hitler coalition and collaborated with the Nazi movement, and may negatively influence children and young people, and that failure by States to effectively address such practices is incompatible with the obligations of States Members of the United Nations under its Charter, including those related to the purposes and principles of the Organization;
- 29. Also stresses that all such practices may fuel contemporary forms of racism, racial discrimination, antisemitism, Islamophobia, Christianophobia, xenophobia and related intolerance and contribute to the spread and multiplication of various extremist political parties, movements and groups of a racist or xenophobic

character, including neo-Nazis and skinhead groups, and in this regard calls for increased vigilance;

- 30. Expresses concern that the human rights and democratic challenges posed by extremist political parties, movements and groups are universal and no country is immune to them;
- 31. Emphasizes the need to take appropriate measures necessary to counter the practices described above, and calls upon States and all other stakeholders to take more effective measures in accordance with international human rights law to prevent, counter and combat those phenomena and extremist movements of a racist or xenophobic character, which pose a real threat to democratic values, and to increase their vigilance and be proactive in strengthening their efforts to recognize and effectively address those challenges;
- 32. Underlines the importance of data and statistics on racist and xenophobic crimes for identifying the types of offences committed, the profiles of victims and of perpetrators and whether the latter are affiliated with extremist movements or groups, thus enhancing better understanding of the phenomenon and identifying effective measures to address such racist and xenophobic crimes, and recalls in this regard the commitments made in the 2030 Agenda for Sustainable Development<sup>17</sup> on data, monitoring and accountability, including collecting data disaggregated by characteristics relevant in national contexts;
- 33. Encourages States to adopt further measures to support training for the police and other law enforcement bodies on the ideologies of extremist political parties, movements and groups whose advocacy constitutes incitement to racist and xenophobic violence, to strengthen their capacity to address racist and xenophobic crimes, to fulfil their responsibility for bringing to justice the perpetrators of such crimes and to combat impunity;
- 34. Expresses deep concern about the increased number of seats occupied by representatives of extremist parties of a racist or xenophobic character in a number of national and local parliaments, and emphasizes in this regard the need for all democratic political parties to base their programmes and activities on respect for human rights and freedoms, democracy, the rule of law and good governance and to condemn all messages disseminating ideas that are based on racial superiority or hatred and that have the objective of fuelling contemporary forms of racism, racial discrimination, xenophobia and related intolerance;
- 35. Takes note of the concern of the Special Rapporteur regarding the resurgence of neo-Nazism in contemporary times and growing support for and acceptance of neo-Nazism and related ideology in an increasing number of countries;<sup>18</sup>
- 36. Notes with appreciation, in this regard, the call of the Special Rapporteur upon political leaders and parties to strongly condemn incitement to racial discrimination or xenophobia, to promote tolerance and respect and to refrain from forming coalitions with extremist parties of a racist or xenophobic character;<sup>19</sup>
- 37. Welcomes the recommendation of the Special Rapporteur to continue to take steps through national legislation, in accordance with international human rights law, aimed at preventing hate speech and incitement to violence, to withdraw support financial and otherwise from political parties and other organizations that engage in neo-Nazi or other hate speech and to take steps to dismantle responsible

organizations where such hate speech aims, or can reasonably be expected, to incite violence:<sup>20</sup>

- 39. Expresses deep concern about the increase in reported cases of racist, antisemitic, Islamophobic, Arabophobic, Afrophobic and xenophobic manifestations during sports events, including those committed by extremist groups of a racist or xenophobic character, including neo-Nazis and skinhead groups, and calls upon States, international organizations, sports federations and other relevant stakeholders to strengthen measures to address such incidents, while also welcoming the steps that many States, sports federations and clubs have taken to eliminate racism at sporting events, including through sport practised without discrimination of any kind and in the Olympic spirit, which require human understanding, tolerance, inclusion, fair play and solidarity;
- 40. Recalls the recommendation of the Special Rapporteur to introduce into national criminal law a provision according to which committing an offence with racist or xenophobic motivations or aims constitutes an aggravating circumstance, allowing for enhanced penalties, <sup>21</sup> and encourages those States whose legislation does not contain such provisions to consider that recommendation;
- 41. Notes measures taken by States to prevent discrimination against, in particular but not limited to, persons belonging to national or ethnic, religious and linguistic minorities, people of African descent, Roma, migrants, refugees and asylum seekers, and to ensure their integration into society, urges States to ensure the full and effective implementation of legal, policy and institutional measures protecting these individuals and groups, including women and girls, and recommends that States effectively guarantee to everyone, without discrimination of any kind, their human rights, including those related to safety and security, access to justice, adequate reparation and appropriate information about their rights, and pursue prosecution and adequate punishment, as appropriate, of those responsible for racist and xenophobic crimes against them, including the possibility of seeking reparation or satisfaction for damages suffered as a result of such crimes;
- 42. Underlines that the roots of extremism are multifaceted and must be addressed through adequate measures such as education, awareness-raising and the promotion of dialogue, and in this regard recommends the increase of measures to raise awareness among young people of the dangers of the ideologies and activities of extremist political parties, movements and groups;
- 43. Reaffirms, in this regard, the particular importance of all forms of education, including human rights education, as a complement to legislative measures, and calls upon States to continue to invest in education, in both conventional and non-conventional curricula, inter alia, in order to transform attitudes and counteract ideas of racial hierarchies and superiority, and counter their negative influence, and to promote the values of non-discrimination, equality and respect for all, as outlined by the Special Rapporteur;
- 44. Recognizes the paramount role of education in promoting human rights and fundamental freedoms and combating racism, racial discrimination, xenophobia and related intolerance, especially in promoting the principles of tolerance,

<sup>20</sup> A/HRC/38/53, para. 35 (c).

<sup>&</sup>lt;sup>21</sup> A/69/334, para. 81.

non-discrimination, inclusion and respect for ethnic, religious and cultural diversity and preventing the spread of extremist racist and xenophobic movements and ideas;

- 45. Strongly condemns the use of educational material and rhetoric in educational settings, which promulgate racism, discrimination, hatred and violence on the basis of ethnic origin, nationality, religion or belief;
- 46. *Emphasizes* the recommendation of the Special Rapporteur presented at the sixty-fourth session of the General Assembly, in which he emphasized the importance of history classes in teaching the dramatic events and human suffering which arose out of the adoption of ideologies such as Nazism and Fascism;<sup>22</sup>
- 47. Stresses the importance of other positive measures and initiatives aimed at bringing communities together and providing them with space for genuine dialogue, such as round tables, working groups and seminars, including training seminars for State agents and media professionals, as well as awareness-raising activities, especially those initiated by civil society representatives, which require continued State support;
- 48. *Underlines* the positive role that relevant United Nations entities and programmes, in particular the United Nations Educational, Scientific and Cultural Organization, can play in the aforementioned areas;
- 49. Reaffirms article 4 of the Convention, according to which States parties condemn all propaganda and all organizations which are based on ideas or theories of superiority of one race or group of persons of one colour or ethnic origin, or which attempt to justify or promote racial hatred and discrimination in any form, and undertake to adopt immediate and positive measures designed to eradicate all incitement to, or acts of, such discrimination and, to this end, with due regard to the principles embodied in the Universal Declaration of Human Rights and the rights expressly set forth in article 5 of the Convention, inter alia:

### **EUROPESE COMMISSIE**

Kabinet van Eerste Vicevoorzitter Frans Timmermans

Lid van het Kabinet

Brussel, 13, 08, 2015 BM/kr Ares (2015) 2715348

Geachte heer Van den Wittenboer,

De eerste vicevoorzitter van de Europese Commissie, de heer Frans Timmermans, belast met betere regelgeving, interinstitutionele betrekkingen, rechtsstatelijkheid en het handvest van de grondrechten, heeft mij gevraagd u te bedanken voor uw brief van 24 juni 2015 inzake de toepassing door Nederland van de Europese regelgeving inzake racisme.

In uw brief vraagt u de Commissie om tegen Nederland een inbreukprocedure in te leiden wegens niet-nakoming van zijn verplichtingen op grond van Kaderbesluit 2008/913/JBZ betreffende de bestrijding van bepaalde vormen en uitingen van racisme en vreemdelingenhaat door middel van het strafrecht. Tevens stelt u dat de Commissie niet aan haar verplichting heeft voldaan om onpartijdig, eerlijk en binnen een redelijke termijn klachten te behandelen en haar rol als hoedster van de verdragen niet vervult bij het waarborgen van de fundamentele waarden van de Unie en het bestrijden van criminaliteit, racisme en vreemdelingenhaat in de lidstaten, zoals het gebruik van nazisymbolen. U wijst ook op een brief die u in september 2014 hebt verstuurd aan het Nederlandse parlement over deze kwestie en een petitie die u op 24 juni 2015 hebt verstuurd aan het Europees Parlement overeenkomstig artikel 227 VWEU.

U hebt deze kwesties reeds aangekaart bij de Europese Commissie in een klacht die wij hebben ontvangen op 8 januari 2015 (referentienummer CHAP(2015)00917) en in een later schrijven van 21 april 2015. De bevoegde dienst heeft u, na een zorgvuldige analyse van uw op- en aanmerkingen, een uitvoerig antwoord gegeven bij brief van 21 april 2015. In deze brief zijn de lopende acties en initiatieven van de Commissie beschreven die de correcte en effectieve omzetting en uitvoering van het kaderbesluit betreffende racisme en vreemdelingenhaat door de lidstaten moeten garanderen.

Na deze brief, en omdat u geen nieuwe wezenlijke informatie heeft verstrekt, heeft de Commissie u bij brief van 15 juni 2015 op de hoogte gesteld van haar beslissing om het dossier betreffende uw klacht af te sluiten.

Zoals reeds werd aangegeven in de aangehaalde antwoorden, kunnen individuele personen aan de Commissie weliswaar feitelijke of juridische informatie overleggen over aan een lidstaat toe te rekenen maatregelen of praktijken die onverenigbaar met een bepaling of beginsel van het recht van de Unie worden geacht, maar heeft de Commissie discretionaire bevoegdheid om te beslissen of de instelling van een procedure tegen een lidstaat wegens niet-nakoming van zijn verplichtingen op grond van het recht van de Unie op zijn plaats is.

Sta mij niettemin toe u nogmaals te verzekeren dat de Commissie streng toezicht uitoefent op de omzetting en uitvoering van het kaderbesluit door Nederland, net zoals zij dat doet voor alle andere lidstaten. Nu de Commissie sinds 1 december 2014 de bevoegdheid heeft om onder controle van het Hof van Justitie toezicht te houden op de toepassing van kaderbesluiten, is zij begonnen bilaterale dialogen met de lidstaten te voeren, inclusief met Nederland, om de volledige en correcte omzetting en uitvoering van het kaderbesluit te verzekeren. De Commissie zal niet aarzelen om op die basis inbreukprocedures in te leiden indien nodig.

Met vriendelijke groet,

Bernd MARTENCZUK
